Handmade and Donated by Stephanie York

I create art pieces which reflect my love of gardens. A garden is a place to reflect, breathing in peace, silence and beauty. My sculptural pieces seek to reflect the meditative nature of working or simply being in a garden. This piece is made from stoneware, hand carved and stamped and then finished with layers of underglaze and colored glazes. Each is one of a kind. To be safe clay sculptures should be kept in a shed during the winter or brought inside to enjoy.
